

### 3 DIFFERENT NETWORK DIRECTORIES ARE AVAILABLE:

- + **Group:** a business-wide common directory
- + **Group common:** the administrator can manage who is included in Group Common. This information is available in each DECT.
- + **Personal:** specific to the extension but cannot be modified using the device.

### MENU SERVICE:

- + Next call anonymous, click on OK. Dial the number that you wish to call without showing your number and finish with Dial.
- + **Call divert:** Select "Act." to activate it. Then, under Number, enter the number to which the call should be diverted. Select when call divert should be activated and finish with Send. As soon as call divert is activated, "call forward activated" is displayed on the home screen.
- + **Do not disturb:** change the status to "Act." to activate Do not disturb mode.

### CALL LIST:

- + **All calls:** all incoming, outgoing and missed calls are available on this menu.

### SETTINGS:

#### + Telephone:

**Automatic pickup:** this option must be activated if you want the incoming call to be accepted as soon as the DECT is removed from its base.

#### + System:

**Handset PIN:** handset locking pin

**Voice mail box:** the voice mail box must be set up by our helpdesk beforehand.
